

8890-MP Passive Utility Marker Pinpointer

Rycom Instruments® makes utility locating as accurate as you need, as simple as you want.

- **6 frequencies locate standard utility markers for Power, Telco, CATV, Water, Sewer, and Gas**
- **3 sensitivity settings for finding deeply buried markers**
- **Scan feature highlights markers in the vicinity**
- **Backlit digital display for low-light reading**
- **Compact design folds for easy storage**
- **Weather proof membrane buttons**
- **Made in the U.S.A.**

The 8890-MP is the first dedicated six frequency passive utility marker locator for professional locators. This offers companies the option to equip themselves with the capability of marker locating without purchasing expensive and redundant equipment. The 8890-MP can locate the six major utility markers – power, water, sewer, gas, telco, and CATV – in one easy to operate unit. The 8890-MP can also be ordered with any combination of needed marker frequencies. Choose water and sewer, telco and CATV, or power and telco frequencies for a locator that fits your specific needs.

A scan feature allows the user to quickly identify any nearby marker and verify the frequency of each marker in the area. This is also useful for ensuring a marker is not misread. The utility marker will detect and isolate the highest reading during the scan and provide the frequency and utility.

The ergonomically designed and balanced 8890-MP receiver provides audible peak tones as the user nears a utility marker. The backlit digital display provides both relative and actual signal strength as well as the detected marker frequency. The highly sensitive antenna wheel conveniently folds under for compact storage in the included carry case. A 10 minute automatic shut-off feature reduces the need to replace batteries.

The 8890-MP is a powerful locator and an excellent value for contract locators, power distribution crews, gas locating crews, CATV service crews, water departments, sanitation districts, telephone companies, DOTs, railroads and municipalities.

Rycom Instruments®, Inc. locators are designed and manufactured to make utility locating as accurate as you need and as simple as you want. For more information on the 8890-MP, or any other Rycom Instruments® product, please call us toll free at 1-800-851-7347 or visit us online at www.rycominstruments.com.

Each 8890-MP utility marker locator comes complete with a multi-function digital receiver, manual, and carrying case.
